

Security and Compliance Questionnaire
RFP Response Template - 2025

This questionnaire is designed to assess your organization's security posture, compliance capabilities, and system performance characteristics. Please provide detailed responses to each question below.

Question 1: Does your system maintain audit logs of all user actions?

Please describe your audit logging capabilities, including what events are logged, how long logs are retained, and how they can be accessed for review.

Answer:

Question 2: How do you ensure data encryption at rest and in transit?

Provide details about the encryption standards used (e.g., AES-256, TLS 1.3), key management practices, and any relevant certifications.

Answer:

Question 3: What is your system's average response time under normal load?

Include performance metrics for typical operations, peak load scenarios, and any SLAs you guarantee for response times.

Answer:

Question 4: Describe your authentication and authorization mechanisms.

Detail the methods used for user authentication (e.g., SSO, MFA), role-based access controls, and how permissions are managed.

Answer:

Question 5: How long are user sessions maintained before automatic logout?

Explain your session timeout policies, including both idle timeout and absolute session duration limits.

Answer:

Submission Instructions:

Please complete all questions and return this document to procurement@example.com

by the deadline specified in the RFP.
